MEMORANDUM FOR: The Director

SUBJECT: Intelligence Requirements and Mobilization

1. On 26 July we forwarded to the IAC a draft of a memorandum for the Executive Secretary, NSC, to support the ones already submitted by the Communications Intelligence Board. On 31 July the Army submitted a re-write of this memorandum.

2. Some of the members are willing to take either one, but most of them favor the Army's draft. In spite of two or three telephone calls, we have been unable to get an answer on this from the Air Force. All others are willing to accept the Army's proposal.
